

ASCE-NH Section
High School Scholarship Application

In November of 2000, the American Society of Civil Engineers - New Hampshire Section (ASCE-NH) created a scholarship to aid a New Hampshire high school student in their pursuit of an engineering education. In addition it is the hope of ASCE-NH to increase the awareness of the civil engineering profession for high school students in the state of New Hampshire. This year up to four (4) scholarships will be granted.

The Award

The top applicants will each receive a \$1,000 scholarship to aid them in their pursuit of an undergraduate degree in engineering. Award winners will be based on receipt of all completed application materials and the most compelling essay as determined by the judges. The scholarship winners and their families will be invited to the ASCE-NH Annual Dinner Meeting held in June of each year. During the meeting, the awards will be presented to the students.

In addition to the scholarship award, each ASCE-NH High School Scholarship winner may have the opportunity to communicate with a civil engineering professional mentor during the first year of college.

Requirements

The student must be a resident of the State of New Hampshire and be a current senior in a New Hampshire high school. The student must have applied to and been accepted by a four-year engineering program.

Application Process

The applicant must submit the following information:

- A completed application form;
- A copy for their high school transcript;
- One (1) letter of reference from a teacher or a registered civil engineer. The reference letter should be in a sealed envelope with the name and signature of the reference on the outside of the envelope;
- A two-page essay on the ASCE-NH High School Scholarship topic listed below.

Application Deadline: postmarked/emailed by April 30

More Information: contact Fred L. Douglas, PE via email: fdouglas@comcast.net

ASCE-NH High School Scholarship topic for the student essay

The student shall submit a two-page essay on how civil engineering impacts their daily life. The format for the essay shall be a maximum of two pages, double-spaced, using 12-point font. The student's name, address, email (if available) and high school should be included on the first page along with the title of the essay.

ASCE-NH Section
High School Scholarship Application Form

Student's Name: _____
Address: _____

Phone Number: _____ e-mail: _____

High School Name: _____
High School City: _____

Class Ranking: _____ out of _____

Colleges of which
you have been
accepted by: _____

Reference Name: _____
Address: _____

If your reference is a registered civil engineer add the following information:

Company: _____
PE Registration No: _____
PE Registration State: _____

Send this form along with a copy of your high school transcript, your essay and the reference letter to the following address, postmarked by April 30th:
